## Summary

Full-stack developer passionate about building scalable web applications and AI-powered solutions. Experienced in React, Node.js, and MongoDB with a track record of deploying production-ready applications. Strong foundation in data structures, algorithms, and system design. Currently exploring emerging technologies like Rust and Go to expand architectural capabilities.

## Education

2023 - 2027

■ **B.S.Abdur Rahman Crescent Institute of Science**  
Graduation  
▫ B.Tech/BE ( Bachelor Of Technology/Bachelor Of Engineering)  
▫ Computer Science And Engineering  
CGPA - **8.67**

2022 - 2023

■ **Abu Dhabi Indian School Br-I Al Wathba**  
12<sup>th</sup> Grade ▫ Science  
Percentage - **90.4%**

2020 - 2021

■ **Abu Dhabi Indian School Br-I Al Wathba**  
10<sup>th</sup> Grade  
Percentage - **77.2%**

## Skills

- **Frontend:** React, Next.js, JavaScript, TypeScript, CSS, Tailwind CSS
- **Backend:** Node.js, Python, GO, REST API
- **Databases:** MongoDB, SQL, Prisma, Supabase
- **Tools & Platforms:** Git, VS Code, Postman

## Projects

### COVID Admin Platform | Python, Flask, SQL, HTML/CSS

- Built and deployed a full-stack web application handling 500+ COVID records with real-time data processing
- Designed normalized database schema reducing query time by 40% through indexing optimization
- Implemented role-based access control and data validation, ensuring 99.9% data accuracy
- Features: Automated reporting, user authentication, and batch data import functionality

### Career Consultant | React, Python, AI/ML APIs | In Progress

- Developing AI-powered career guidance platform targeting 1000+ students across India
- Integrated LLM APIs for personalized course recommendations based on user profiles and market trends
- Built responsive React frontend with interactive college filtering and course comparison tools
- Expected to launch Q1 2026

### Web Engine | React, Tailwind CSS, JavaScript | In Progress

- Engineered a no-code website builder enabling non-technical users to create production-ready sites
- Implemented drag-and-drop interface with 50+ pre-built components and live preview functionality
- Added HTML/CSS/JS export feature, allowing users to host generated code independently
- Supports responsive design across desktop, tablet, and mobile devices
